

# Early detection can save your life

While breast cancer can happen any time of the year, this Breast Cancer Awareness Month, put yourself first. One in every eight women will develop breast cancer, but if discovered early - it can be treatable. A 3D mammogram is one of the best ways to catch breast cancer in its earliest stages.

**Adena Health is your partner in your healthcare journey.**

**Call 740-779-7711**  
to schedule your mammogram at one of our six convenient locations.
